

SPAMANICURE™

ALMOND MILK BATH

WHAT IT IS

A nourishing warm-oil hand soak that transforms into a milky moisture bath for nails and surrounding skin.

WHAT IT DOES

- Deeply conditions skin and nails with sweet almond oil, jojoba oil and vitamin E.
- Transforms into a hydrating, milky soak with the addition of equal parts warm water.

WHY YOU NEED IT

- Softens and deeply conditions the nails and cuticle area at the beginning of a manicure service.
- Provides a beautiful ritual for your clients.

FEATURED INGREDIENTS & BENEFITS

Sweet Almond Oil (*Prunus Amygdalus Dulcis*):

Softens and conditions, helps balance water loss and absorption. Soothes dry, irritated skin.

Joboa Seed Oil (*Simmondsia Chinensis*):

Deeply penetrating natural oil for excellent moisturizing and conditioning. Jojoba Oil acts like a carrier to increase penetration of other ingredients.

Vitamin E (Tocopheryl Acetate):

Used for its highly effective moisturizing and softening agents. Also known to improve skin elasticity.

Laureth-4:

Coconut-derived surfactant converts to a hydrating, milky bath when combined with warm water.

DIRECTIONS FOR USE

- Fill a bowl with hot water and place a second, smaller bowl inside. Add 1 oz of Almond Milk Bath in bowl to warm.
- Soak fingers for 1-2 minutes.
- Massage and add warm water to create a milky solution.
- Rinse hands one at a time in bowl using a facial sponge to thoroughly cleanse.
- Dry with a towel.

CND offers comprehensive education opportunities. Check the education section of CND.com for a class near you.

CREATIVE SUGGESTIONS

- As an alternative, use a professional lotion heater to heat oil.
- Excellent retail item for use in the bath.
